MU-SO HEKLA

IMMERSIVE ALL-IN-ONE
HOME CINEMA SYSTEM

PRESS KIT

A SONIC EXPLOSION THAT IGNITES YOUR LIVING ROOM

After redefining high-fidelity listening with its Diva Utopia range of active and connected loudspeakers, **Focal has now transformed home entertainment with Mu-so Hekla.**

Mu-so Hekla is a sleek, all-in-one sound system that replaces bulky home cinema setups with effortless elegance. Named after Iceland's iconic volcano, Hekla unleashes an eruption of sound **powered by Dolby Atmos®**, enveloping every corner of your room in **breathtaking realism,**

whether you're watching films, playing video games or listening to music.

Merging Focal's acoustic mastery with Naim Audio's electronic precision, Mu-so Hekla delivers **exceptional power, clarity, and next-generation connectivity**, setting a new benchmark for cinematic and musical immersion at home.

Launched on 6th November 2025 at the Focal Powered by Naim store in Seoul, Mu-so Hekla will first be available in South Korea and China, followed by a global release in Q1 2026.

The product will be showcased :

- At CES Las Vegas (6–9 January 2026)
- ISE Barcelona (3–6 February 2026)

Recommended retail price (incl. VAT): €3300 / \$3600 / £3000

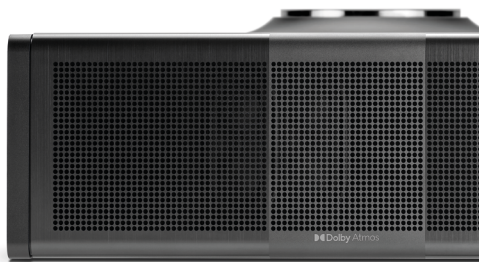

**MU-SO HEKLA WILL BE AVAILABLE EXCLUSIVELY THROUGH
THE FOCAL POWERED BY NAIM RETAIL NETWORK.**

YOUR DAILY COMPANION

EASY CONTROL AT YOUR FINGERTIPS

With Mu-so Hekla, **effortless control** is always within reach. Manage your music and settings directly through intuitive **widgets in the Focal & Naim app** on your smartphone, or even from your **Apple Watch or Android Wear device**. The system works seamlessly with voice assistants like Google Home and Siri, and integrates smoothly into **premium home automation** platforms including Control4, Savant and Crestron. For a more hands-on experience, Hekla's **tactile rotary volume dial** offers a smooth, precise and elegant way to adjust volume and access key functions.

CONNECTED TO YOUR DESIRES

Designed for effortless living, Mu-so Hekla integrates seamlessly into your everyday routine. With versatile wired connections, including **HDMI eARC and optical Toslink**, it connects easily to your TV, gaming console, or CD/Blu-ray player, supporting everything from simpler 2.0 setups to fully immersive 7.1.2 configurations. **Dolby Atmos® technology** surrounds you in rich, three-dimensional sound for a truly cinematic experience at home.

Powered by the **Naim Pulse Platform**, Mu-so Hekla offers instant access to your favourite music. **Stream wirelessly** via AirPlay, Google Cast, UPnP™, or Bluetooth®, or connect directly to **streaming services** such as Tidal, Qobuz, Spotify, and QQ Music (China) - all easily managed through the **Focal & Naim app**. The app's **Multiroom feature** lets you synchronise playback across multiple Focal and Naim systems, filling your entire home with beautifully balanced sound.

FOCAL & NAIM APP MUSIC AT YOUR FINGERTIPS

Intuitive and user-friendly, the app lets you easily control one or several products, including Mu-so Hekla. Quickly access your music, streaming platforms, and radio stations – all in high-resolution. Featuring the Sphere module from the Naim Pulse Platform, Mu-so Hekla supports Dolby Atmos® content and immersive audio settings, including ADAPT technology and Audio Modes. The app also offers usage tips and full multiroom control for users of the Focal & Naim ecosystem.

THE APP IS AVAILABLE ON THE APP STORE AND GOOGLE PLAY.

SOUND PERFORMANCE & COMPACTNESS

FOCAL ACOUSTIC EXCELLENCE

Building on the heritage of the acclaimed Naim Audio Mu-so range, Mu-so Hekla embodies Focal's signature sound. Beneath its elegant grille lies a meticulously engineered acoustic architecture designed by Focal's expert engineers.

The system houses **15 individual speaker drivers**, each dedicated to a specific frequency range, from crisp tweeters and expressive midrange drivers to dynamic woofers and full-range units for Dolby Atmos® effects.

Every transducer is optimally positioned and angled to create a truly **three-dimensional listening experience**. A finely tuned bass-reflex system enhances low frequencies with impressive **depth and control**, ensuring every note retains its clarity and impact.

The result is a soundstage that fills the room with lifelike detail and effortless power. As a true ambassador of the Mu-so family, Mu-so Hekla redefines what an **all-in-one audio system** can achieve by **combining high-fidelity performance with everyday** simplicity for both hi-fi and home cinema.

NAIM ELECTRONIC ENGINEERING

At the heart of Mu-so Hekla lies the Naim Pulse Platform - a digital engine that drives seamless connectivity, precise processing and exceptional playback performance. Within it, the advanced **Sphere module** ensures true **high-fidelity sound reproduction** through ultra-optimised, latency-free computing power. **Audio Modes**, fully compatible with Dolby Atmos®, deliver finely tuned sonic immersion, while **ADAPT technology** intelligently calibrates the system to your listening environment.

COMPACT AND REFINED DESIGN

Crafted from **brushed anodised aluminium**, Mu-so Hekla exudes understated luxury in a single, sculptural form. Its alternating brushed and bead-blasted finishes recall the precision detailing of fine watchmaking, echoing the “watch crown” design code found on Diva Utopia, while the finely perforated grille and signature volume dial - a nod to its volcanic namesake - add a touch of elegance. At the rear, the distinctive Naim heat sink cleverly combines heat regulation with integrated Wi-Fi connectivity.

SPECTACULAR IMMERSION

AN IMMERSIVE CONFIGURATION

Mu-so Hekla is Focal's first home cinema system distilled into a single, all-in-one solution. Its advanced acoustic layout - seven speakers at the front, two on each side, and four on top - delivers a truly multidimensional sound experience, powered by a total of **660W**. These 15 drivers are individually amplified (3 × 60W for the woofers and 12 × 40W for the remaining drivers), ensuring effortless control, rich detail, and dynamic precision across every volume level.

The front-facing woofers produce deep, enveloping bass, with an RCA output available for those wishing to add a subwoofer. Surrounding **full-range drivers** on the sides and top extend the soundstage, reflecting audio from walls and ceilings to create a sense of spacious realism. This **immersive spatialisation**, developed by Focal's acoustic engineers, combines **Beamforming and Crosstalk Cancellation technologies** to precisely direct and shape audio flows, delivering a captivating listening experience perfectly attuned to your space.

CUSTOMISABLE AUDIO MODES

Mu-so Hekla offers a suite of Customisable **Audio Modes**. Accessible through the Focal & Naim application, these modes range from Stereo to **Dolby Atmos®, including Dolby Movie, Dolby Music, Dolby Night, Sphere Music, and Sphere Movie**.

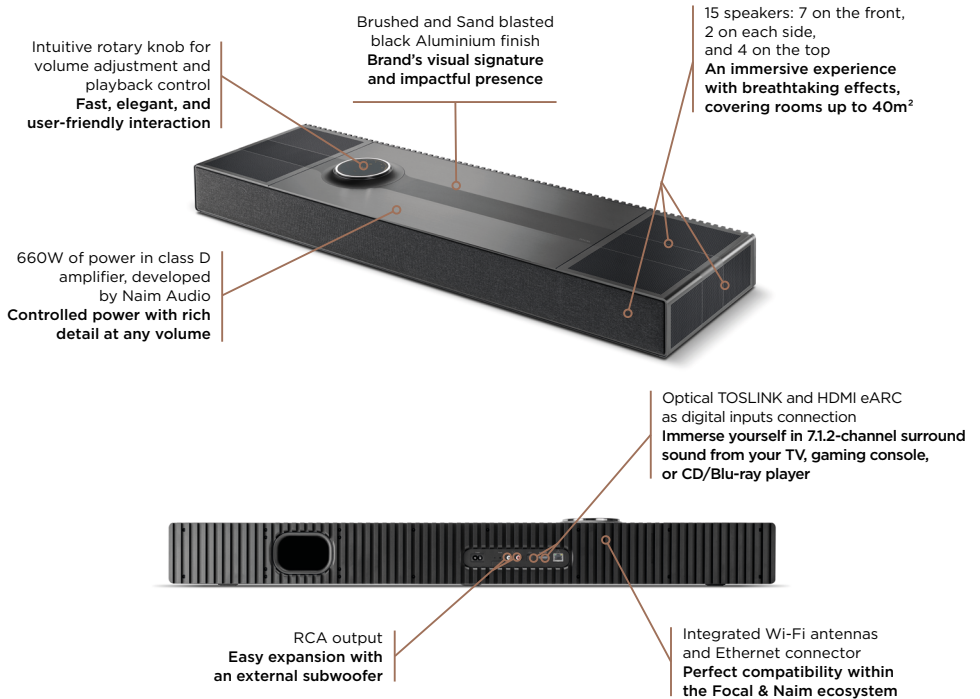

The Dolby modes use advanced virtualised spatialisation to deliver a wraparound sound field from multichannel audio sources, while the exclusive Sphere modes - developed specially by Focal and Naim - reflect sound waves off walls and ceilings to create a remarkably lifelike sense of depth and presence.

TAILORED TO YOUR SPACE

Equipped with **ADAPT technology**, **Focal's patented** Adaptive Acoustic Personal Tuning, first introduced in the Diva Utopia loudspeakers, Mu-so Hekla intelligently calibrates its performance to your room. In just a few simple steps, its sophisticated algorithm analyses your environment and fine-tunes the system's parameters, ensuring **perfectly calibrated, high-fidelity sound wherever you place it**.

PRODUCT SHEET

Key points

- **A Home Cinema experience in an all-in-one system.**
A single piece, discreet and powerful, to be placed on a piece of furniture.
- **Dolby Atmos® technology** for fully immersive playback of your compatible content - supporting configurations up to 7.1.2.
- **660 W of power delivered through 15 speaker drivers.** Immersive and powerful spatialisation.
- **Optimised connection** for seamless integration into your audiovisual setup (TV, gaming console, CD/Blu-ray player, subwoofer).
- **Latest streaming board from the Naim Pulse Platform, dedicated to our “Sphere” systems.** The NPP gives you access to your favourite streaming services with full connectivity and constant updates. The Sphere module is dedicated to our immersive speakers.
- **Control via Focal & Naim application, used by all Focal and Naim streamers.** Quick access through Widgets, smartwatches, or compatible voice assistants (Google and Apple). Multiroom and Party mode compatible.
- **Audio Mode “Sphere” by Focal and Naim,** designed by our engineers, with a hybridisation of Beamforming and Crosstalk Cancellation technologies.
- **ADAPT technology:** personalise the audio rendering according to your room's configuration.

Specifications

| Type | All-in-one Immersive system |
|---|---|
| Speaker Drivers | 15 Speaker Drivers Front: 3 x Woofers (6"x3") 2 x Midranges (2.75") 2 x Tweeters (1") Side: 4 x Full range (1.5"x 2.75") Top: 4 x Full range (1.5"x 2.75") |
| Bandwidth (+/-3dB) | 30Hz - 20kHz |
| Low-frequency cut-off (-6dB) | 27Hz |
| Maximum sound level | 108 dB SPL (@1m) |
| Amplification power per speaker driver | 660W on 15 speaker drivers Woofer: 3 x 60W (4Ω, 1% THD) Full range / Midrange / Tweeter: 12 x 40W (6Ω, 1% THD) |
| Analogue outputs | 1 x RCA pair for subwoofer connection |
| Digital inputs | 1 x Optical TOSLINK (up to 24bits/96kHz) 1 x HDMI eARC, CEC 1 x RJ45 Ethernet |
| Streaming services | TIDAL* Qobuz* QQ Music* |
| Wireless streaming technologies | Google Cast AirPlay Bluetooth* UPnP™ Spotify* via Spotify Connect TIDAL* via TIDAL Connect Qobuz* via Qobuz Connect QQ Music* via QPlay (China only) |
| Internet Radio | Internet Radio (with Xperi extended Metadata) from Naim server Streaming containers: HLS, DASH, OGG. Codecs: MP3, AAC, Vorbis, FLAC, OPUS. |
| Audio Format | WAV - up to 32bits/384kHz FLAC and AIFF - up to 24bits/384kHz ALAC (Apple Lossless Audio Codec) - up to 24bits/384kHz MP3 - up to 48kHz/320kbits (16bits) AAC - up to 48kHz/576kbits (16bits) OGG - up to 48kHz (16bits) OPUS - up to 48kHz (16bits) DSD64 and DSD128 Bluetooth* 5.1 - SBC, AAC Note: handles smooth, gapless playback on all formats. All formats to 384kHz maximum over wireless network. |
| Multichannel Audio Format | -Dolby Digital AC3 Channel based 5.1 up to 48kHz -Dolby Digital AC4 Up to 7.1.2 up to 48kHz -Dolby Digital Plus (EAC3) Channel based: 7.1 up to 48kHz; Object based 16ch up to 48kHz -Dolby Digital TrueHD Channel based, 7.1 up to 96kHz; Channel based 5.1, 192kHz; Object based, 16ch up to 96kHz -Dolby MAT (HDMI only) Channel based: 7.1 up-to 48kHz; Object based 16ch up-to 48kHz -Multichannel FLAC (Streamer only) Channel based 7.1 up-to 192kHz -Multichannel WAV (Streamer only) Channel based 7.1 up-to 192kHz -Apple APAC (Streamer only) Configured to 7.1.2 mode up-to 192kHz |
| Control | Focal & Naim App (iOS and Android) |
| Update | Update your system wirelessly via the Focal & Naim App |
| Multiroom Connectivity | Sync up to 32 Focal & Naim streaming devices and control them from the Focal & Naim App |
| Network | Ethernet (10/100/1000Mbps), Wi-Fi 6 (802.11 a/b/g/n/ac/ax) |
| Automatic Standby time | User selectable: adjustable from off up to 2 hours (default Auto Standby: 20 minutes) |
| Rated power consumption | 200W |
| Power consumption in network standby mode | < 2W |
| Power consumption in standby mode | < 0,5W |
| Main power supply | 100V to 240V, 50/60Hz |
| Finishes | Brushed anodised and sandblasted aluminium |
| Grill | Included |
| Dimensions (HxWxD) | 4.65x39.37x11.61" (11.8x100x29.5cm) |
| Weight | 15.5 kg |
